Carrell Blanton Ferriss, Attorneys, provide legal services with a focus on special needs planning. Special Needs planning includes establishing and administering special needs trusts to provide for services and benefits of a person with a disability (physical or mental) while maintaining the individual's eligibility for public assistance benefits. A Special Needs Trust can pay for needs that go beyond food, shelter, and clothing and the medical support services of Medicaid. A Special Needs Trust would be set up to supplement, not replace, public benefits.

Attorneys knowledgeable about this type of trust and current government benefit programs can guide you on whether to start a trust and when.
