Family & Psychological Services is a group of licensed psychologists and professional counselors that provide a wide range of therapeutic services designed to assist those facing a personal challenge. Services are provided to individuals, couples, families, and organizations. Services are available for health-related problems, stress/anxiety, phobias and fears, separation and divorce, family concerns, addictive behaviors, depression, personality disorders [and more](#).

Geriatric, personality and educational assessments are available, together with testing for depression, memory loss and anxiety.
