The principal function of the Managed Care Ombudsman is to help Virginia consumers who have health care insurance provided by a Managed Care Health Insurance Plan (MCHIP). The Managed Care Ombudsman will promote and protect the interests of covered persons under MCHIPs in the Commonwealth. A major responsibility of the office involves educating consumers about their rights and how to advocate on their own behalf when they have a problem or concern about a MCHIP.

The Managed Care Ombudsman can assist consumers in understanding and exercising their rights of appeal of adverse decisions made by MCHIPs. In addition, the Managed Care Ombudsman will also conduct consumer outreach efforts so that more Virginians are aware of the Bureau of Insurance, and how the Ombudsman can provide assistance.
