Internal Medicine practice has its focus on complete primary care with emphasis on prevention and offers geriatric, cognitive, functional and medication assessment (prescription and over-the-counter), physical examinations, nutritional and diet review, checking for sensory impairment, hearing and vision impairment, depression, memory loss, immobility and anxiety. Also available are evaluation of falls, osteoporosis evaluation, evaluation and management of incontinence, elder abuse screening. Nurse Practitioner or PA on staff.

University Medical Associates (UMA) offers personalized primary care services, including preventive healthcare and treatment for a broad range of health problems. We care for adults and young adults, as well as geriatric patients.

Currently accepting new patients. Hospital admitting privileges at University of Virginia Hospital.
