Sandy River Family Care provides health services to the entire family by assuring access to routine primary care, health promotion, and preventive health screening. Services are provided by staff physicians and nurse practitioners and include treatment for minor illnesses and injuries, management of chronic conditions, women's health care and services to migrant workers. The staff provides immunizations and well-child care, school and sports physicals, laboratory services, and referral to pediatric and adult medicine specialists when required.

Location also in Danville, Virginia. A staff physician has inpatient admission privileges at Danville Regional Medical Center.

Service Area(s)

Henry County
