Spanish

HomeStart offers community-based housing and supportive services for families as they move toward a new beginning and independent living for families leaving either of the shelters by providing:

- Assistance with securing rent-subsidized housing and all the living essentials so that they can begin to develop rent stability.
- Intensive services to develop and achieve individualized and measurable goals for gradually building capacity for independent, self-reliant living.
- Emphasis on employment stability, financial literacy, parenting, interpersonal relationships, and the full spectrum of children's services.

This support helps ensure individuals escape the downward cycle of homelessness and violence.

Service Area(s)

Arlington County
