Comfort Keepers offers Alzheimer's disease and dementia care. Caregivers receive special training to care for seniors with Alzheimer's and dementia. Caregivers understand the disease, its symptoms, how it affects behavior and that it progresses at different rates for different seniors.

Comfort Keepers is an affordable alternative that also allows you and/or loved one to remain in your own home. They treat each of their clients with the respect and dignity they deserve as though they were a member of Comfort Keepers own family. Respite care is offered to family caregivers to give them a much-needed break.

As well caregivers have specific goals to help maintain a safe environment for the client, engage them in sensory-stimulating activities, provide meals and bathing assistance, and support both the family and client through any changing behaviors.

Whether services are needed for a few hours a day or 24 hours a day, caregivers are available to meet your needs.

You can call 24/7 to speak with someone or be contacted within 24 hrs.

Service Area(s)
