Surry Medical Center is a satellite community health center in Surry that offers adult/pediatric care for acute and chronic conditions, lab and diagnostic services, well-child checks, minor emergency care, pharmacy assistance, and health education.

Community Health Centers (CHCs) are nonprofit organizations located in medically underserved areas (MUAs), providing comprehensive primary health care to anyone seeking care. In addition to treating individual patients, a health center emphasizes health promotion and disease prevention for entire communities. A Community Health Center does not deny anyone primary health care services - all community residents have equal access regardless of ability to pay, geographic location, culture, age, sex, or religion.

Service Area(s)
Sussex County
