Virginia Medical Center offers convenient, walk-in, no appointment necessary Urgent Care services for a variety of injuries and illnesses such as sprains, sore throats, and

ear & skin infections. Along with the Urgent Care services, Virginia Medical Center provides Primary Care by a Board Certified Internist. To serve you and your family better we are available to our patients at any time throughout the day. You are not required to adhere to our schedule. We work ourselves around your schedule. The emphasis is on you, the patient.

Service Area(s)
Loudoun County
