Visiting Angels, Vienna offers companion care and homemaker services. Non-Medical home care services allow seniors to maintain the independence of their daily routines and familiar surroundings. Some services include up to 24-hour care and include meal preparation, medication reminders, light housekeeping, errands and shopping, joyful companionship, as well as respite for family caregivers, and personal care. They believe you and your family should have a choice about where and how you live as well as who will provide your care.

The personalized service system is designed to maximize your peace of mind. You'll have the opportunity to interview any caregiver they refer to you. You deserve to have a caregiver who is experienced in the services needed in your home. They only hire those with experience, run comprehensive background checks, and are licensed and bonded.
