At the Eastern Shore Behavioral Healthcare Center, the Eastern Shore Community Services Board offers outpatient behavioral health counseling, case management, psychiatric services.

Youths and their presenting problems can only be understood in the context of their family, significant caretakers and the other social environments in which they live and function; therefore, any treatment usually involves at least one family member who can help support the client's therapy goals.

The Eastern Shore Community Services Board operates an extensive transportation fleet to assist individuals in getting to appointments, so transportation will not be a barrier to their treatment success.
