Ashburn Psychological and Psychiatric Services has expertise in applying the principles of Health Psychology to a wide range of problems, disorders and health issues including:

- Headache, fibromyalgia, and other chronic pain conditions;
- Stress-related conditions;
- Substance abuse, including tobacco, alcohol and other drugs;
- Health anxiety and excessive worry about physical symptoms;
- Eating disorders, including binge eating, bulimia and anorexia;
- Adjustment to chronic illness, such as cardiovascular disease, cancer and diabetes;
- Weight management and dietary change;
- Exercise adherence;
- Insomnia.

Psychologists will evaluate each of the relevant factors influencing the client's specific problem and devise a personalized treatment plan to help them achieve their goals.
