Centra PACE provides a program of health and social services to seniors who qualify for nursing facility level of care but want to stay in their homes. An interdisciplinary team of professionals made up of primary care physicians, registered nurses, social

workers, health aides, transportation personnel, rehabilitation therapists, dietitians, and recreation/activity personnel work with a participant and his or her family to develop a tailored plan of care which is monitored closely and updated as needed.

PACE participants can be picked up from their homes each morning and brought to the PACE Center. The Center provides socialization, hot lunch, and medical assistance as needed. A PACE participant must live in the city of Farmville or surrounding communities within 30 minutes of Farmville. At the end of the day, the PACE van takes the participants back home to enjoy family, friends, and the surroundings they know and love.

Services provided are:

Medical care and transportation to and from specialists

Adult daycare

Hospital care. (PACE team will coordinate care)

Prescription medicines

Vision, hearing, and dental care

Rehabilitation and therapy services

Durable medical equipment

Outpatient medical services: lab work, X-rays, etc.

Mental health care

Home care and nutritional services

Respite services

24-hour on-call physician services

Meals

Personal emergency response

Wheelchair accessible transportation

A participant of Centra PACE receives all health care services arranged by the interdisciplinary team. If a participant receives medical services from an out-of-network provider or without prior authorization, he or she may be liable for the full cost of those services. Capacity is 125.
